

2023 PLA BOARD NOMINEES

BOARD MEMBERS RENEWING TERMS:

Peter Dinger

I purchased my house on Province Lake in 2003 while living and working in Maryland/Washington DC. I moved to the lake full time after retirement in 2010.

After attending a PLA annual meeting in 2011, I was enticed to join the Lake Association. During the years since then, I have served as Vice President, Lake Host Coordinator, and President.

To me there is no finer place to live than on Province Lake and no more fulfilling role than helping to protect and preserve Province Lake water quality. With your support, I look forward to continuing that work as part of the PLA Board

Mindy Schuman-Vye

My husband and I feel fortunate to have purchased our cottage on Lakeshore Drive in Effingham in 2009. Though not our permanent residence we get to enjoy the beauty of the lake year-round. I have been on the PLA Board since 2014. I started as Vice President, serving a three year term, and then President for 2 more years. I have continued to be involved as a Director for the last four years. I have enjoyed being part of the team to welcome new lake residents with Welcome bags and information. With your support I look forward to continuing on the Board as a Director for another term to continue to support the PLA's mission to maintain and improve the lake for generations to come.

Dennis Badman

I came to Wakefield from Pennsylvania in 1992 when I was recruited by Dr. Bozuwa to take over providing medical services for the community and allow him to comfortably retire. In 2008 I bought a camp on Point Road and converted it to my permanent residence. I continue to work at my office in Sanbornville and I continue to love my home on Province Lake and sharing our mutual good fortune with wonderful neighbors, loons, eagles, ducks, woodpeckers, bass, turtles and the occasional visiting grandchild. I have been on the PLA Board since 2021 and would be privileged to get your support to serve another term on the Board.

Larry Moody

My name is Larry Moody, a resident of Wakefield, NH. I have had the good fortune of enjoying Province Lake and the surrounding area my entire life as have family members before me. I have resided on Bonnyman Road for over thirty three years and have participated in various PLA activities. Most recent addition is Volunteer Lake Host. Over the past two years I have been a board member working with others that are very concerned with the quality of Province Lake. I'm appreciative for the last two years as a board member, and would appreciate your vote to continue.
